

Light source

LAMPE – 987-2479

E27 LED, 4W · 470lm, 3000K

- **Not dimmable**

Retrofit LED filament light sources are extremely popular – and for good reason. They combine the charming retro style with their warm and cosy light and also score points for their environmental friendliness thanks to their high energy efficiency. The light source has an E27 socket and is available in a practical set of 2. Thanks to the amber-coloured glass, the light source emits a warm light that is ideal for illuminating living spaces. Modern LED technology is characterised by high light quality and energy efficiency. Compared to conventional halogen light sources, up to 80% of energy costs can be saved. LED light sources also have a long service life, generate less heat and protect the environment.
