- Switch Dim To Warm

The LAMPE LED light source has an E27 socket and emits a pleasant, warm white light. The light source offers the option of adjusting the light colour and brightness in 3 levels using a conventional light switch. The white glass of the light source filters the light and emits it gently into the surroundings. Modern LED technology is characterised by high light quality and energy efficiency. Compared to conventional halogen light sources, up to 80% of energy costs can be saved. LED light sources also have a long service life, generate less heat and protect the environment.
